Article 5 (Fundamental rights and responsibilities of the fund's holders)

Fundamental rights of the fund holders under these Rules are:

- to sign scholarship contracts under these Rules, in proportion to the amount of funds contributed to the fund,
- the right to access information in the records of the students involved and to select the students with whom the scholarship contract will be signed,
- the participation of a representative in the Fund's Administrative Board,

- to address to the authorities under these Rules complaints, initiatives and other applications,

Each pedagogical and research member institution of the UP, the Student's residence of the UP and the rectorate, contribute funds each academic year in the amount of at least a 1-year scholarship.

In the case that one of the fund holders provides justifiable reasons for a smaller amount of funds than the one set out in the previous paragraph, an exception to this rule may be granted for a determined academic year. The Administrative Board of the Fund decides on this matter. A well-grounded reason may be the poor financial situation of the fund owner, so that the payment of the obligations set out in the previous paragraph would be too onerous for the fund owner and would result in financial distress.

Among the basic responsibilities of the faculties and associated member institutions of the UP is the duty to provide data on the average grades of students according to the criteria defined by these Rules.

Article 6 (Selection of students and scholarship holders)

On the basis of paid-in dedicated funds for university scholarships, each partner or fund holder has the right to grant scholarships to selected students.

If several partners or fund holders wish to sign a scholarship contract with the student, the student has the right to choose a scholarship holder.

Article 7 (Fundamental rights and responsibilities of the fund partners)

The fundamental rights of the fund partners under these Rules are:

- to sign scholarship contracts under these Rules, in proportion to the amount of funds contributed,

- ensure the fulfilment of the investment contract with the fund and the scholarship contract under these Rules,
- regular reporting of any changes of data required in the process of inclusion in the fund programme.

Article 8

(Fundamental rights and responsibilities of selected students)

The fundamental rights of the selected students under these Rules are:

- a signed scholarship contract with the investor of the fund,
- receiving a scholarship in the amount and in the manner determined in the scholarship contract,

Students and candidates must express their interest in joining the fund by applying to the public call.

The fund programme includes:

- candidates who will enrol or who are enrolled in the 1st year of any 1st level study programme at the UP, and whose number of points achieved at the matura examination or whose overall secondary education achievements are higher than the average number of points awarded at the matura examination of all graduates in the Republic of Slovenia who passed the matura examination in the same year. The data on the average number of points awarded at the matura examination of all graduates in the Republic of Slovenia is obtained by the trustee of the fund from the National Examination Center;
- students who will enrol or who are enrolled in the 1st year of a 2nd or 3rd level study programme at the UP, when their overall average study grade at the previous level is higher than the total average grade for all students of their generation (same level and same study programme) at the previous level of study at the faculty where they have previously been studying, according to accredited public-educational programmes, or who have obtained at least grade 9 at the previous level of study. Students with an average grade of at least 8.5 may also be included in the fund even if their average grade is lower than the total average grade of all students of their generation, provided that the discrepancy does not exceed 0.1;
- students enrolled in the 1st, 2nd, or 3rd level of study programmes at the UP and graduation candidates, except those enrolled in the first year, whose average grade is higher than the total average grade of all students of their generation (same year and same study programme) or those who, at their previous level of study, obtained the average grade 9. Article 11

(Criteria for including students in the fund)

The Administrative Board of the Fund decides on inclusion in the fund on the basis of the total number of points in the following categories: academic results (average grade), language skills, extra-curricular activities and international experience. Those categories are assessed in the manner shown in the table below.

Category	Number of points	Methodology or evaluator
Average grade	60	$y = 60 \cdot \left(1 - \sqrt{\frac{(p_i - x_i)^3}{t_i^3}}\right)$ <p>where</p> <ul style="list-style-type: none"> - $i=1$ for candidates enrolled in the 1st year of undergraduate studies that passed the vocational matura examination; - $i=2$ for candidates enrolled in the 1st year of undergraduate studies that passed the general matura examination; - $i=3$ for all other candidates; - $(p_1, t_1)=(23, 15)$; - $(p_2, t_2)=(34, 24)$; - $(p_3, t_3)=(10, 4)$; - x_1 number of points achieved by the candidate at the vocational matura examination; - x_2 number of points achieved by the candidate at the general matura examination; - x_3 average grade of the candidate;
Language skills	15	The points are determined by the Commission for Foreign Languages. The Commission evaluates individual certificates according to the content, duration and importance of the proof.

»Disclaimer: All of the translations contained on this website are unofficial. Only the original Slovene texts of the laws and regulations have legal effect, and the translations are to be used solely as reference materials to aid in the understanding of Slovene laws and regulations. For all purposes of interpreting and applying law to any legal issue or dispute, users should consult the original Slovene texts.

Extra-curricular activities	15	The points are determined by the Commission for Extra-Curricular Activities and International Experience. The Commission evaluates individual certificates according to the content, duration and importance of the proof.
International experience	10	The points are determined by the Commission for Extra-Curricular Activities and International Experience. The Commission evaluates individual certificates according to the content, duration and importance of the proof. Active participation in international experience is understood as active participation in international summer schools or workshops, studying abroad, participation in the organization of international events etc.
Total points	100	

When assessing foreign language skills, only certificates of foreign language skills issued by an accredited institution are taken into account. In evaluating foreign language skills, the methodology of the level according to the Common European Framework for language learning is taken into account (levels from A2 onward are graded). In the event that the Commission for Foreign Languages decides that proof of language proficiency is not comparable with the established scales (points, grades), three members of the Commission for Foreign Languages can check the candidate's knowledge and grade it.

Students or candidates themselves submit appropriate written evidence evaluated by the Commission for Extra-Curricular Activities and International Experience, where the participation of students in international competitions is taken into account as an extra-curricular activity. A student representative proposed by the Students' Council of the UP must participate in the Commission for the Evaluation of Extra-Curricular Activities and International Experience.

The Commission for Extra-Curricular Activities and International Experience takes into account only the evidence which is provided by the student to demonstrate extra-curricular activities and international experience over the past three years. The Commission consists of two members among the fund holders and one student representative proposed by the Students' Council of the UP.

The rector appoints the Commission for Foreign Languages and the Commission for Extra-Curricular Activities and International Experience. The Commission for Foreign Languages is composed of three members of the UP who are appointed to the academic title in foreign languages.

All commissions prepare a list of points obtained from each category together with scoring.

In the case of candidate athletes, the category of foreign language skills and international experience is not taken into account, and the category of extra-curricular activity is valued at 40 points. Candidate athletes submit appropriate written evidence of their status as athletes, which is evaluated by the Commission for Extra-Curricular Activities which is appointed by the rector.

The investment contract is also signed by the fund holders, with the exception of the UP rectorate, that will contribute dedicated funds for grants, as a rule, to the best students.

By the end of October at the latest, partners and holders of the fund inform the trustee of the fund of the amount of dedicated funds that they will contribute to scholarships for students for the new academic year.
